A Dangerous Man.

Mr. Sumner says that Grant is a bold, bad, dangerous man.—(Newspaper.

"A bold, bad man is General Grant,"
Said Lloyd one gloomy night,
As out from Donelson he crept,
And took his hasty flight.

From Pillow's trembling lips there came
An echo sounding much the same,
And Buckner thought his chief was right,
Nor longer dared maintain the fight;
And then down came the rebel "Dare,"
And from the fort hung stripes and stars.
"That Grant's a dangerous man," said they;
And doubtless think the same to-day.

"A bold, bad man is General Grant,"
Said Beauregard one morn,
As from the haughty traitor's brow
The victor's wreath was torn;
And from the field his legions went,
By orders General Grant had sent.
Then shiloh's field was one's again,
Despite the host of rebel men,
Who came an army boasting loud,
And went a panic stricken crowd:
For Beauregard and all his men
Perhaps thought Grant was dangerous then.

"A bold, bad man is General Grant,"
And poor Bragg's eyes were dim
With tears; said he, "I know
'Tis useless fighting him."
And soon the cheers from Grant's brave men
On Lookout's crest told where and when
The rebel general had to run,
And what that "bold bad man" had done.
"That Grant's a dangerous man!" he said,
As from the field his army fled.

"A bold, bad man is General Grant,"
Said Lee, "that's plain to see;
He must be very bold, indeed,
To think of whipping me."
Then Petersburg and Richmond fell;
Then Appomattox—may be—well,
At last our hero's work was done;
The final victory was won.
Perhaps the people may forget
These things, but then, they haven't yet.
They needed then such "dangerous" men,
And think, perhaps, they may again.

"A bold, bad, dangerous man is Grant;"
Jeff Davis thought the same,
When, running 'fin crinoline,
He to the "last ditch" came.
A Ku-Klux's gentle voice was heard,
And—"Grant is dangerous" we read.
It needs must be that this is so,
For all these rebels ought to know.
Then Hall and Tweed—good, honest men—
Say "Grant is bold and bad," and when
Such men declare it, then, forsooth,
Folks know that Sumner tells the truth.

Elm Grove, Wis., May, 1872.

(Galena Gazette.

A Professor in one of our Western Colleges, whose bodily presence was weak, but who, having a tall spirit, was determined to defend no inch of the respect due to his office or himself, disapproving also of the lax conventionality of the "frontier," requested the students whenever they should meet him, Dr. H., their friend and their professor, to take off their hats! This enactment did not suit the Western temper, and stirred slightly the Western pulse. No remonstrance, however, was offered, and the Doctor, who had been visited by his misgivings as to the result, breathed freely, felt that the rough point was rounded, and felicitated himself upon his firmness.

Returning one evening from a supper party, in unusually genial mood, Dr. A. ascended the long flight of stone steps leading to his rooms. When about half way up he descried Mr. G. from St. Paul coming down, both arms clasped round a bundle of kindling wood. As he drew near the Doctor uttered his bland "good evening" (the rising English inflection managed to a nicety), touching his hat as he spoke. The Minnesotian returned the salute *de rigueur*, unloosing, as he did so, the fatal faggots with a fall like thunder! Hop, skip and jump could not save the unfortunate Doctor, when, acutely by his evil genius, at this moment who should appear upon the scene but Captain K., the one armed hero from Wisconsin, striding rapidly down with his Saturday night's pail of hot water!

Because his friend was in grief should he pass him by? Beholding his chief, for the moment stripped of office, capering upon the stairs, should he refuse to salute him? He to whom "regulation" was both law and instinct? Never! and his faithful "left" sought his hat, away went the pail pail! bump! thump! splash dash!

"Confound you both!" roared the unfortunate recipient of college honors, rubbing and wringing by turns!

Hot water is known to be emollient!—It may have expedited the doctor's recovery. Certain it is that after a few days' seclusion, during which there came frequent pulls of camphor and opodeldoc from his quiet room, and, "like horns from Elf-land faintly blowing," the echo of much din and ghostly laughter from distant halls and corridors, the professor again stood before his class. There was something in his whole air and deportment as new to him as to them—something suggesting not exactly defeat, but rather deprecation—non resistance, or as them and there described, "Unsheathed by Jove I limp as a rag."

NEWPORT DAILY NEWS.

MONDAY, June 17, 1872.

The International Convention of the Young Men's Christian Association will meet next year in San Francisco.

The strikers in New York were in a turbulent state on Saturday, and it required the utmost efforts of the police to keep them within bounds. Much excitement prevailed and at one time an outbreak appeared imminent.

The southern papers speak highly of the cotton crop just now in blossom, and cereals never gave better promise in the South and West than this year. From ocean to ocean the press has news of plenty of fruit, an abundance of cereals, a fine prospect of hay, and only an extended drought can cut short the supply. Michigan ranks first among the States claiming extraordinary good prospects, and farmers all through the State are feeling particularly good natured.

The Geneva board of arbitration in the matter of the Alabama claims met on Saturday. Summaries of the proofs and arguments on both sides were presented. The proceedings were conducted secretly and nothing further is definitely known. There are other reports giving more details, but how trustworthy they are it is impossible to say. One account represents that the English argument was not submitted and that the agent of that government has sent for further instructions.

Senator Sumner's decision in respect to supporting Greeley and Brown, is anxiously waited for by a good portion of the masses of the colored people throughout the country. He is daily interviewd by various delegations to ascertain his political intentions for the future, but although his hostility to Grant is not a particle abated, he has not yet declared himself in favor of the Cincinnatti ticket. Present indications, however, lead his friends to believe that unless Baltimore shall nominate Charles Francis Adams, he will lend his influence for the election of Dr. Greeley.

Referring to the silly charge of nepotism urged against the President, the Ogdensburg (N. Y.) Journal remarks:

"It is a way he had before he was called to occupy the White House. Take and give has characterized his whole conduct from the beginning of the war till the present moment. He commenced at Fort Donelson, which he gave to his aunt Columbia. He gave Vicksburg to his uncle Samuel, for a birthday present; Mission Ridge to his cousin Yankee Doodle, and Appomattox to brother Jonathan. In order to perpetuate this nepotism, he had to turn out Buckner, Pemberton, Beauregard, Bragg and Bob Lee. They all considered it an outrage, but it made no difference with Grant, for he did not stop as long as there was anything to take."

Accidents are again the order of the day. Yesterday a terrible one occurred at Marseilles. A Spanish steamship loaded with passengers, was at the dock, when the entire upper portion of the vessel was blown to pieces by the explosion of her boilers. Few of those on board escaped death or injury.

Near McGregor, Iowa, another disastrous explosion took place, on Saturday, by which five persons are know to have been killed, and many more wounded. This was a tug boat in the Mississippi upon which there were some thirty-five persons, many of whom have not yet been accounted for. The cause of the accident was the bursting of the boiler, and all above the boiler deck was blown into fragments.

A freight train near Rockway, N. J., was thrown from the track, Saturday, and three persons were killed. This accident was caused by somebody's carelessness in misplacing the switch.

Grumblers.

Grumbling is a disease which, once caught, is seldom got rid of again; a habit that sticks like a bur and grows like a mushroom; a Nemesis garment, which, when put on, cannot be taken off and hung up in the wardrobe at pleasure, but which clings to the devoted flesh with immovable tenacity and resists every effort from the outside to tear it away. Nothing but the most resolute will conquers that habit when formed; but resolute will, though strong enough when dealing with other folk's weaknesses and tempers, is wonderfully incapable when acting as a curb on one's self. And when the question comes of doing anything disagreeable to flesh and blood for the good of one's soul, resolution is apt to melt away from marble to mud.

Yet if the grumbler only knew how disagreeable he makes himself! It is to be presumed that we like to be loved, save those few eccentric people who boast of their ability to live without the sympathy or charity of their kind. But, taking mankind *en masse*, and making no abnormal exceptions, we all desire the esteem and good feeling of our fellows, and the most of us condescend even to underhand meanness to insure consideration. But the grumbler, without intending it, makes all who come in contact with him so uncomfortable that they only long to escape him; and he wearies even the stoutest affection by time. So far from seeing that any cloud of his has a silver lining, to his way of looking at things the brightest silver throws a sable shadow; and instead of the longest lane having a turn at last, the shortest that he may have to traverse is as if endless.

Whatever good things he has are overtopped by their corresponding disadvantages, and his lean kine eat up his fat ones at a sitting. If you praise his children, he points out to you their faults; if you tell him his garden is pretty, he laments the trouble and expense of keeping it up; if you envy him the sunny aspect of his flower clad house, he counts up to you the cost of the faded carpets and curtains which a southern aspect involves, and sighs over earwigs in his tea and greedily on his roses. Whatever you see in his surroundings to admire or approve he is sure to expose to you the defects; and if he has to choose between admiring a flower and lamenting a weed, the weed will come in for the lamentation and the flower will go unregarded.

A gentleman sent a lad with a letter to the Post Office, and money to pay the postage. Having returned with the money, he said 'Guess I've done the thing slick. I seen a good many folks puttin' letters in the Post Office through a hole, and so I watched my chance, and got mine in for nothing."

Another Polar Expedition.

The Austrian Polar expedition, reported to have sailed a few days since under command of Weyprecht and Payer, sailed from Bremerhaven in the screw steamer Admiral Tegethroff, built at that port. The steamer is 220 tons burden, 118 feet long, 25½ feet beam, 13½ feet depth below deck, has the rig of a three-masted schooner, and an engine of ninety-five horse power, capable of propelling her five to six knots an hour. She accommodates coal sufficient for forty days' use. There are on board, besides Lieutenants Weyprecht and Payer, two other officers of the Austrian navy—Brosch and Orel—an accomplished machinist, two glacier guides, from the country of the Tyrolese, and sixteen picked marines from the Austrian service, making in all twenty-four men. The plan is to advance, if possible, to the Pole on the meridians east of Spitzbergen, in the open sea, there discovered last September by the commanders of the present enterprise. The expedition is provisioned and thoroughly equipped for a stay of three years in the Arctic regions. They propose to winter the first year at Cape Chelyuskin, the northernmost point of Asia (longitude 100 east); to prosecute the survey and exploration of the central Polar region in the second summer; and during the third summer to strike, if possible, eastward to Behring Strait.

The sum of $87,000 has been privately contributed in Austria alone, and the Emperor of Austria has given very largely, by material aid, to the fitting out of an expedition. Also Count Wiltschek, a wealthy and liberal savant, has given the expedition 30,000 guilders. He will also establish and maintain in Nova Zembla a depot of provisions and supplies, for which he further appropriates a large sum.

The Tribune says that Senator Schurz signed the call for a political conference with the understanding that Greeley's friends are to be invited.

It is probable that the proposed underground railways in New York will connect with the basement of the new Post-Office building, thus saving one hour in the distribution of the mails from New England, and all that are brought on the Hudson river and New York Central Railroads.

Foreign Notes.

The World's Fair was opened in Copenhagen, on Wednesday, by King Christian, of Denmark.

A despatch from Bremen announces that the Austrian Polar Expedition has sailed from that port for the Arctic Ocean.

A Matamorus special says that Trevino claims to have captured 1600 prisoners at the battle of Monterey. Private letters from Monterey state that fifteen persons, including men, women and children, were massacred during the occupation of the city by Revueltos. A Brownsille special says that Corella is disheartened, and admits the destruction of the army sent by the Government against the northern frontier. The triumph at Monterey is regarded as of great importance to the revolutionists. Corella's forces will be united with those of Trevino's, which will render the capture of Matamoras easy. The entire northern frontier will then be in the hands of the revolutionists.

Sunshine in Dwellings.

The time very likely will come when sunshine or sunlight will be utilized as to be the entire remedy used for very many diseases. That it is a wonderful vitalizer none can doubt who know anything about it. But how many houses are constructed with a view to getting all the sunshine possible especially when so much is needed as in winter and spring? The living or sitting room, at these seasons of the year at least, should have a full southern exposure, with large windows to let in the sunshine. Sleeping rooms, wardrobes, closets, passageways should receive the cleansing, vivifying influence of the sun. Sickly persons should court the sunshine as much as possible—sit in it, lie in it, luxuriate in it. It doesn't cost anything, only appreciation. A room warmed neither by sun nor by fire is unhealthy and not fit for human habitation. It is a poor theory that sends men, women or children off into a cold room to sleep, on health principles, when warmth has been excluded for a day or a week, or perhaps months. The change in the temperature of a room, having both fire and sunshine, after the sun goes down, is exceedingly marked. A perceptible chill is felt.

At the annual city election in New London, Monday, the Independent or "Dolly Varden ticket" was completely successful.

ABOUT HOME.

—Rev. C. E. Barrows sailed from New York on Saturday.

—The hoe and shovel brigade were busy in our streets this morning.

—Those who ought to know say that this is a warm day.

—"The Jubilee" forms the all absorbing topic of discussion with the Hub papers to-day.

—Mr. E. B. Harrington, the model conductor on the Old Colony and Newport Railroad, entertained his brother conductors at his residence on Charles street, yesterday.

—A fight occurred on long wharf yesterday between a Fort soldier and a man by the name of Lyman. Lyman escaped, but the Fort soldier was taken to the station house for a night's lodging.

—As will be seen by the advertisement in another column, during this week a train will leave Boston for Newport on the Old Colony road at 7:05 P. M., for the accommodation of those who wish to attend the Jubilee. This train will arrive here at a little past 9 o'clock.

—The improvements made on Commercial Wharf by the American Steamboat Company are very marked. This was almost as poor a thoroughfare as Long Wharf itself and it is a pity that our Providence friends will not hire that also and do for us in mending our ways, what we seem incapable of doing for ourselves.

DRUNKENNESS.—As was to be expected in a city where rum flows as freely as it does here, there was considerable drunkenness yesterday, although the police used every exertion to keep the licensed dealers within bounds. But few arrests were made during the day. One or two saloons, we understand, were closed by order of the City Marshal, but farther than that the active duties of the police were light.

THE JUBILEE.—Today witnesses the opening concert of the great Boston Jubilee and one would judge from the tone of the Boston papers that they expected all the world to be there. Everything has been put in readiness and if this pleasant weather holds, the crowd that will gather will not be small. Many of Newport's sons and daughters will doubtless be found there during the coming weeks, the 7.05 P. M. train making it possible for them to attend the concert and return the same day.

NEW YORK YACHT CLUB.—The race for the cup presented by Lester Wallack, which was postponed from last season, will be sailed over the New York Club course on Monday, June 24. The yachts in the ocean race for Commodore Bennett's challenge cup will start on the third Thursday in July. The course is from the Sandy Hook Lightship to Brenton's Reef Lightship off Newport and return. The annual cruise will begin about the last of July or the first of August. The course has not yet been decided on, but a visit to the Portland (Me.) Yacht Club is talked of. Such an arrangement would give a delightful trip, which may be offered by the citizens of Portland.

JUNE MEETING.—The annual gathering of the Friends to worship God according to the dictates of their own consciences, always draws together a large crowd of people who come for an entirely different purpose from that which draws the members of this religious sect to our city. Yesterday the crowd that was present surpassed in size all other crowds we have ever seen in Newport. They came from Taunton, Fall River and New Bedford by thousands, thirty-two cars being crowded to their utmost capacity, and hundreds more came by private conveyance; from Providence at least two thousand were present, while from across the Bay the steamer Florence brought a large number. Private teams were brought into requisition largely, and the number who came that way greatly increased the throng that was to be found in our streets from "early morn till the going down of the sun." It is estimated on good authority that, taking into consideration those who have come during the last week, there were 10,000 strangers in town yesterday.

SUNDAY SERVICES.—Yesterday was one of the pleasant days of the season and as a result our churches were well filled, though the Friends' meeting probably drew away a few who would otherwise have been present. At the Rev. Mr. Brooks' church the Rev. Mr. Simpson, an Englishman, at present a student at the Divinity school, Cambridge, preached a stirring discourse and was listened to with much interest by the large congregation. Rev. Dr. Thayer exchanged pulpits with the Rev. Mr. Bartlett of Providence, who delivered a very acceptable sermon. The Rev. Mr. Barrows of the First Baptist church, being on his voyage to Europe, his pulpit was supplied by the Rev. James Peter Ludlow, of California. All Saints Chapel was open for the first time this season and the Rev. Mr. Kramer of New York officiated, to a fair sized audience. The Marlboro' street Methodist, the Second Baptist and the Thames street Methodist churches were supplied by the Friends and the audiences were largely made up of members of that sect. At their own place of worship a large concourse of people was assembled both forenoon and afternoon, and preaching was carried on out of doors and in.

The Catholic church was crowded to its utmost capacity all day, it being the occasion of the first visit of Bishop Hendricken, the newly elected Bishop of this diocese. The Redwood Band was present to assist in furnishing music on the occasion and great efforts were made by our Catholic friends to render the first appearance of the bishop in this city a pleasant one. In the afternoon meeting for the Sabbath school was held and in the evening the Band gave a sacred concert in front of the church. The Bishop preached a very able and interesting sermon in the morning.

The Taunton Republican says Mrs. Catherine Haskins, of Berkley, 84 years of age, wife of Cyrus Haskins, and daughter of the late George Howland, of Freetown, made a pleasure excursion to the city of Taunton last week for the first time since the year 1812—a space of 60 years. In the year 1812 she rode to Taunton on horse-back.

A Suggestion.

Mr. Editor: I saw by your paper of last week that the English' Grenadier Garde Band," were to visit this city after the closing of the "Worlds Peace Jubilee." I am also informed that the French "*Garde Republicaine* Band" intend to pay us a visit, at or about the same time.

In the event of those eminent musicians visiting Newport, I would with many of our citizens be very much pleased if they could be induced to give an open air concert, and hope that the necessary steps may be taken in time so that proper arangements may be made, and that a meeting of the citizens be called if no better plan can be suggested, that the English, French and the U. S. 5th Artillery Band at Fort Adams, be invited to give us an open air concert in Touro Park. I mention Touro Park because that locality would accommodate all who wish to attend.

I really hope that some of our enterprising citizens will take this matter into consideration now, while there is time, so that the suggestion may be carried into effect and afford our citizens and strangers, one of the richest musical entertainments ever enjoyed in our city. Will not some one second this movement and oblige many citizens.

JUBILEE.

[These suggestions we should be pleased to see carried out, but we understand that Mr. Gilmore has put a veto on it, by contracting with the bands to play only at the Jubilee. Ed.]

South Kingstown.

Rev. D. C. Wharton has offered to fill the vacant pulpit of the Church of the Ascension, Wakefield, during the summer months, services to be held for the first time on Sunday, June 23d, 1872. The friends of the Episcopal Church will receive this announcement with pleasure, as the church has been closed since last September.

The fine condition of the bathing beach at the Pier is quite noticeable. The recent storms which have visited our coast has removed the small stones, and left the sand smooth and even, presenting a fine picture of a model bathing beach.

At Lynn, Mass., all comparisons are based upon shoe leather. A cobbler having applied for admission to an orthodox church at that place, the deacons held a consultation over the candidate. Says one deacon to the other: "Well, deacon, Bob G—wants to join our meeting." "Yes; do you know anything against him?" "Well, no,—but before you take a final vote on him, I'd just like to show you a job of cobbling he did for me, that's all."

A nice little boy in Pittsburg went to the circus the other day, and amused himself by throwing stones at the elephant while he was drinking. When he got through, the boy tried to propitiate him by offering him a pieces of ginger-bread. Before accepting the cake, the elephant emptied about sixty-four gallons of water, beer measure, over the boy, and then slung him into the third tier to dry off. The boy is very indifferent about circuses now. He says he believes he doesn't care for them as much as he used to.

The Narragansett Mill in Fall River, now receiving the roof, was built and the frame of the roof placed in position for covering, in fifty-six working days. The mill is three hundred feet long, seventy-three feet wide, five stories high, and its contractor required its construction required over twenty thousand feet of southern pine timber for floor beams, and four hundred and fifty thousand feet of pine plank flooring.

A farmer on the road between Charlton and Worcester, having been terribly annoyed by drummers, put up the sign: "No sewing machine wanted. Got one!" It was of no use, however; the next drummer wanted to see the machine. So now the farmer has put out: "Small-pox," and says that works first-rate.

The property and effects of the American Silver Steel Company of Bridgeport, were sold by auction on Tuesday for $43,000.

Dealers in carpets are referred to the advertisement of the New England Carpet Company in another column.

Causeless Depression.

This expression is often used, but it is manifestly absurd. Gloom and melancholy are not spontaneous. They are unnatural mental conditions and usually have corresponding causes. If there is no apparent reason for despondency, it is a symptom of physical disease. In nine cases out of ten the stomach, the liver and the bowels are responsible for the cloud which rests upon the brain. In all such cases immediate and permanent relief may be obtained by the use of Hostetter's Stomach Bitters! If the digestive organs are weak an invigorant is necessary; if the liver is disordered an alterative is required; if the bowels are constipated or irregular a gentle aperient is needed. In that famous vegetable remedy these three medicinal properties are commingled with several others of a scarcely less important character, and hence it speedily cures every species of hypochondria arising from material causes, by removing the causes themselves.

In the summer, when disorders of the stomach and bowels, bilious complaints and all diseases which affect the assimilating and secretive organs are especially prevalent, the importance of having this invaluable tonic, alterative and corrective in every dwelling, and within the reach of all who travel by land or water, cannot be over-estimated.—As it is a staple article throughout the country it would be next to impossible to find a settlement, near or remote, unprovided with a stock of this famous vegetable restorative.

The new Colonnade Hotel, Philadelphia, Pa., is in the vicinity of several Presbyterian Churches.

Have it Always at Hand.—Accidents will happen in the best regulated families, and for this reason among many others, the MUSTANG LINIMENT should find a place in the cupboard of every household. In all the world there is nothing comparable to it as an application for cuts, contusions, burns, spasms, and scalds, and when every other preparation that medical ingenuity can suggest, has failed to afford relief. In rheumatism, neuralgia, sore throat, glandular swellings, muscular contractions, cramps, toothache, &c., this powerful anti-inflammatory and pain-destroying agent immediately assuages the sufferer's agony and eventually accomplishes a radical cure. Probably there is not a connoisseur in horse flesh or an amateur horseman in the land who does not know, either from personal observation or reports that the MUSTANG LINIMENT is the *supreme remedy* for all external diseases and injuries of the horse.

HOUSEKEEPING GOODS are now among the necessaries of life. Parties in search of curtains, patches, quilts, embroidered covers, blankets, flannels, linens or cottons, will find all that is new and desirable at the ... establishment of JORDAN, MARSH & CO., Boston.

The Bar Room Remedy for weakness of the stomach is a dose of Rum Bitters. They are surcharged with *Fusel Oil*, a deadly element, which is rendered more active by the pungent astringents with which it is combined. If your stomach is weak, or your liver or bowels disordered, tone, strengthen and regulate them with VINEGAR BITTERS, a pure VEGETABLE STOMACHIC, CORRECTIVE AND APERIENT, free from alcohol, and capable of infusing new vital ... into your exhausted and disordered system.

FATAL EXPLOSION OF A LOCOMOTIVE BOILER.

BUFFALO, June 16.

The locomotive of the express train on the Erie railroad, due here at 11:30 last night, exploded its boiler 15 miles this side of Hornellville, near Swan station, instantly killing the fireman, fatally injuring the engineer, and slightly injuring John A. Robinson, who was riding on the engine, and a lady passenger.

THE JAPANESE EMBASSY.

SARATOGA, June 15.

The Japanese embassy arrived here this evening under charge of Gen. Myers, and will proceed to Boston Monday evening. At Niagara Falls, last evening, ex-President Fillmore dined with the party. The meeting was extremely pleasant owing to the fact that Commodore Perry's expedition to Japan was sent out during Fillmore's administration. Ex-Secretary of State Steward was invited, but could not be present.

Mad Dog Excitement.

LOUISVILLE, June 16.

The east end of the city was thrown into a terrible state of excitement last night, by a mad dog, which ran through the streets biting ten or twelve persons, including several little children. Some persons were badly torn by the beast.

Gettysburg.

The Battlefield Memorial Association re-elected Governor Geary President. A committee were appointed to invite the submission of plans, specifications and proposals for the erection of indication obelisks or monuments.

NEW YORK LABOR TROUBLES.

Riotous Demonstration by the Strikers.

NEW YORK, June 15.

Early this morning information reached police headquarters that the strikers were massing in the 10th and 21st precincts, where are large cabinet and piano factories. Superintendent Kelso ordered the reserves of neighboring precincts to march to the threatened districts and to protect persons and property at every hazard; and then went himself to the nineteenth precinct, while Inspector Dilks went to the twenty-first. Steinway's factory was besieged by 300 men, as early as six o'clock, but the police drove them off. A large crowd of strikers soon afterwards gathered in front of a cabinet factory in Forty-second street, near third avenue. A sergeant of police and patrolmen were stationed there and kept the strikers at bay until the arrival of a detachment of police, who were obliged to use clubs freely to disperse the strikers.

More Eight Hour Workers.

It is announced that the machinests and blacksmiths, here and at Albany, in the shops of the New York Central Railroad, 3,000 ... a strike today for eight hours. The mechanics in the shops of the Long Island Rail Company at Hunter's Point stopped work yesterday, demanding the eight hour system.

FRANCE.

AWFUL DISASTER AT MARSEILLES

MARSEILLES, June 16.

While the Spanish ship Guadayea was lying in this port today, crowded with passengers, her boilers exploded. The entire upper portion of the ship was torn to pieces. Of those on board, few escaped death or injury. Forty-four passengers and eleven of the officers and crew were killed. Immediately after the explosion the steamer took fire, and the flames communicated to the dock. A serious conflagration was threatened. Several hundred bales of cotton were consumed.

A Scotch nurse was out with a baby in the master's garden, and the gardener inquired, "Is't a laddie or a lassie?" "A laddie," said the maid. "Weel," says he, "I'm glad o' that, for there's ower mony women in the world." "Hech, mon," says Jess, "did ye no ken there's ay mair sown o' the best crap?"

CARPETS,
OIL CLOTHS,
AND MATTING.

The subscriber has received, and offers for sale, a fresh stock of Carpets in good variety.

Having been fortunate in buying before the recent rise in price, he is able and willing to sell at as low prices as can be found in the lowest markets.

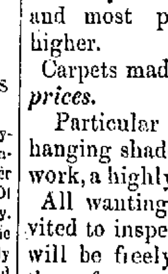

The high price and scarcity of wool makes it probable that prices will advance with the season, and he therefore recommends all needing Carpets this year to buy early, for they will certainly be no lower in price, and most probably will be higher.

Carpets made and laid *at fair prices.*

Particular attention paid to hanging shades using for such work, a highly approved fixture.

All wanting Carpets, are invited to inspect the stock, which will be freely shown, leaving them free to purchase or not as they may decide.

SPECIAL NOTICES.

The Celebrated Quaker Bitters—A Great Spring Medicine.

Why do many people in the Spring of the year feel weary, weak, languor of body and mind, which if not removed, often results in dangerous maladies, a morbid sensation, &c.

It is because nature at this season of the year is undergoing a great change. She commences to germinate, to generate, to propagate, to build, to renovate; this great law is palpable in all the animal creation, hence the necessity of a counter action.

The aged are more susceptible of nature's changes than the young, because the power of repelling disease is not so great, consequently requiring more vigilance.

Those past the meridian of life, at all seasons of the year, are greatly benefitted by taking a few bottles of the Quaker Bitters. It produces new life, energy, and consequently happiness.

THE subscriber would inform his patrons that he is ready at the OLD STAND on Commercial Wharf to answer their need. A competent machinist will give attention to the repair of all kinds of Mowing Machines, Lawn Machines, and general jobbing. The Steel Plow is leading. The Long-framed Cultivator is superior. The Clipper Mowers, Bay State Rake, the Tedder Horse Hay-fork and Hay-conveyor, are the best helpers in haying.

The Wilson's, Bradley's, Davis's, Upton's, Middleon's, or any other brand of Fertilizer supplied at wholesale or retail.

The Cucumber Wood Pump is unrivaled for cheapness, durability and capacity.

We can now supply the long desired Horizontal Attachment to take well-water indoors for family use, all through wood, and no metalic taste.

Please not delay your repairing until you need the machinery. Please call and consult our catalogues for articles not named: Allan's, of N. NOTICE.

THE UNDERSIGNED being authorized to build or cause to be built a wharf for the JAMESTOWN NEWPORT STEAM FERRY ASSOCIATION and the east side of said town; south of William H. Knowles' wharf, commencing on land to be deeded to said Association, and running east about one hundred feet to the depth of four feet at low tide; the walls to be fifty-five feet apart from outside to outside of said walls with a heading from the south wall north thirty feet (thence running in a south-easterly course about one hundred feet, the walls to be twenty-five feet apart from outside to outside of said walls. The walls are to commence three feet above high water mark perpendicular on the land running first hundred feet from three feet to five feet wide on the bottom and two to three feet on top of the wall. The second hundred or thereabouts to be laid eight feet on the bottom and three feet on top of the wall when finished. The head and south side of said wharf to be tied with ties and furnished with ties by the Committee and put in as by them directed, the work is all to be done in good workmanlike manner. Builders are to procure all stone for the walls and the walls are gradually to rise from the shore three feet to five feet at the terminus above high water mark at the head of said wharf. The Committee propose the walls to be built at so much per square yard; and also the filling in between the walls will be let per square yard; there is about 2500 yards filling and 1200 of walls. The Committee are willing to direct where the materials can be had for filling and for stone for wall, or any other information in regard to plans or specifications can be had by conferring with the Committee.

Proposals can be made until June 25th, 1872.

The payments will be made in three installments as the work progresses; responsible parties are required.

Castoria—a substitute for Castor Oil—a family physic which is pleasant to take and does not distress or gripe, but is sure to operate when all other remedies have failed. It is a purely vegetable preparation, containing neither Minerals, Morphine nor Alcohol, the result of fifteen years experimenting by Doctor Samuel Pitcher. It is perfectly harmless and far more effective than Pills, Narcotic Syrups or Castor Oil. By soothing the system it produces natural sleep, and is particularly adapted to crying or teething children. It kills Worms, cures Stomach Ache, Constipation, Flatulency and Derangement of the Liver. No family can afford to be without this article. Milk of Diseased Cattle.

Mr. Husson, in a paper upon the milk of animals diseased with the cattle plague, announces, as the result of one of his researches, that neither the flesh nor the milk of animals suffering from this cattle plague —contagious typhus—will convey the disease, although they may suffer greatly in their nutritive properties. The milk of diseased cows be found to have a more or less marked reddish-yellow tinge, and a disagreeable flavor, although cats fed upon it seemed to suffer no inconvenience. As general conclusions, Mr. Husson remarks: First, that when the typhus breaks out in a cow-house, all the beasts therein are subjected, although in different degrees, to the epidemic influence. In fact, in one instance, the whole herd died, with the exception of four cows, which never seemed to be ill, although they furnished one of the three specimens of milk analyzed. Second, milk cannot, any more than flesh, transmit the disease to man, nor to animals that do not belong to the ruminant family. Third, notwithstanding this, even during the first stage of the disease, when the yield still continues normal, the milk should not be employed as food for children, in consequence of the modification that has taken place in its principles. Fourth from the commencement of the disease, the combustible elements of the milk, in great part, disappear, while the azotized elements, on the contrary, are increased in considerable proportions, and are soon found commingled with sanguinolent matters. Frequently there may be observed, under the microscope, agglutinated globules, either mucous or purulent.

A GREAT MEDICAL DISCOVERY

MILLIONS Bear testimony to their Wonderful Curative Effects.

DR. WALKER'S CALIFORNIA

J. WALKER, Proprietor. R. H. McDONALD & Co., Druggists & Gen. Agents, San Francisco, Cal., and 32 Commerce street, N. Y.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile **Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER** and **A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

JURUBEBA,

Is a Powerful Tonic, especially adapted for use in Spring, when the LANGUID and DEBILITATED system needs strength and vitality; it will give vigor to the feeble, strength to the weak, animation to the dejected, activity to the sluggish, rest to the weary, quiet to the nerves, and health to the infirm.

It is a South American plant, which, according to the medical and scientific periodicals of London and Paris, possesses the MOST POWERFUL tonic properties known to Materia Medica, and is well known in its native country as having wonderful curative qualities, and has been long used as a specific in all cases of **Impurities of the Blood, Derangement of the Liver and Spleen, Tumors Dropsy, Poverty of the Blood, Debility, Weakness of the Intestines, Uterine or Urinary Organs.**

Dr. Well's Extract of Jurubeba

Is strengthening and nourishing; like nutritious food taken into the stomach, it assimilates and diffuses itself through the circulation, giving vigor and health.

It regulates the bowels, quiets the nerves, acts directly on the secretive organs, and, by its powerful Tonic and restoring effects, produces healthy and vigorous action of the whole system.

CHEAP ADVERTISING!

Advertisements occupying One Inch of space will be inserted in **310 Newspapers** in the

Southern States

covering thoroughly the States of Maryland, Delaware Virginia, West Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Arkansas, Tennessee, Kentucky and Missouri.

ONE MONTH FOR $148!

This list comprises from **30** to **40** more papers than the lists of either of the other agencies, and has the following special advantages;

1st. A higher grade of newspapers with larger circulations than any similar List extant.
2d. Circulation among better classes and in better localities.
3d. *Lower Prices.*

circulation being the main test of values, and the only gauge of prices in this business, it is clear that it would be economy for advertisers to avail themselves of our lists, even at higher proportionate rates, rather than use the crude combinations of other parties.

These considerations coupled with the fact that the average price per paper of our Lists is considerably LOWER than all the others serve to show the **UNPARALLELED SUPERIORITY!** of the advantages we offer.

Equally favorable quotations made for any single State. Copies of Lists, Circulars, Estimates, and full information furnished on application. Business not confined to any Lists, but embraces the best secular and religious newspapers of the country. Established 1867. Apply to the

"PATENT PAPERED WOOD HANGINGS,"

Parties Decorating their Walls and Ceilings should carefully examine the merits of the WOOD HANGINGS and not accept the unfavorable reports of interested parties. Instead of throwing away your white doors or having them grained or putting in solid hard wood, you can have them covered with Wood Hangings, putting in solid mouldings, saving a great expense.

Office of JAMES Y. SMITH & NICHOLS,
No. 56 Westminster Street.
Providence, R. I., April 20, 1870.

CHARLES W. SPURR, Esq., 43 Summer St., Boston.

DEAR SIR:—Our Union Bank decorated their banking rooms with your Wood Hangings two years ago, which has been much admired. The work stands well, no showing of its giving out in any way. Hope you are successful in introducing the same.

Very truly,
JAMES Y. SMITH, President.

ERIE RAILWAY, JOHN S. DUNLAP, N. England Agent,
194 Washington Street, Boston, June 24, 1870.

CHARLES W. SPURR, Esq.,

DEAR SIR:—I have your favor of the 1st, referring to your Wood Hangings. About a year since I had it used in the dining room and halls of my house, and to date I am perfectly satisfied with it in every particular.

Very truly,
JOHN S. DUNLAP.

SELWYN'S THEATRE, MANAGER'S OFFICE,
Boston, May 8th, 1870.

CHAS. W. SPURR,

SIR:—I wish to say that your Wood Hangings have been on the walls of the Vestibule of this Theatre since August, 1868, and have proved entirely satisfactory. As the walls were plastered, and the Vestibule very much exposed to the varied changes of the weather, there were serious doubts of the permanency of this style of decoration, but those doubts have been entirely removed. And the truth of this is manifest to the many who come to see and judge for themselves, and who admire its beauty and novelty exceedingly.

I remain yours truly,
JOHN H. SELWYN.

TRANSCRIPT OFFICE, Boston, May 10, 1870.
CHAS. W. SPURR, Esq.,

DEAR SIR:—The Wood Hangings you put upon my house, No. 14 Montgomery Street, has stood the test of two years' use, to the entire satisfaction of the family. It is as firm on the wall as the day you left it. The heat or moisture has not caused the wood to peel in a single spot, and I see no reason why it will not remain so for years. I can cheerfully recommend its use to all, in preference to paper in a dining room.

Respectfully and truly yours,
H. W. DUTTON.

BOSTON, Dec. 24, 1870.

It is with the greatest pleasure we acknowledge the solid and elegant effect produced by your PATENT PAPERED WOOD HANGINGS in the halls, dining rooms, and vestibules of the "St. Cloud Hotel." In the construction of this building, we have, as trustees, studied the most rigid economy consistent with durability; and it being within our own knowledge, that, for the past three years your woods had remained wholly unaffected by steam, furnace heat, and dampness, we had no hesitation in using them almost exclusively in the interior decoration. We heartily congratulate you upon the success with which you are meeting.

Very truly, GEORGE B. BIGELOW,
For Trustees of Baffinton Estate.

BOSTON, Nov. 15, 1870.

Since the first introduction of your "PATENT PAPERED WOOD HANGINGS," we have had you apply over six thousand (6,000) feet of Dadoe in Black Walnut, White Wood, Butternut and Oak. We have also used your Cedar and White Wood Hangings for Closets, Pantries, and Bath Rooms. Your work has proved to be unaffected by dampness, steam or furnace heat, and while the cost is far below solid wood, you are enabled to give us the choicest varieties. The work you have just finished for us exceeds in elegance of woods and workmanship, all your other efforts. Accept our congratulations in your present success, which must rapidly increase with a general appreciation of the elegance and durability of this mode of decoration.

Yours very truly, &c.,
BOURN & LEAVITT,
146 Mt. Vernon St., Boston
